(54) Title: **SCREEN STOWING ARRANGEMENT FOR A BOAT**

(57) Abstract: A display device (8) such as a flat screen television may be stowed away out of sight within a cabin by partly recessing into a moulded coaming (3) forming part of the boat's superstructure (1) in addition to being partially received in a special housing (7). In this way, the fact that a display device (8) is hidden out of view is made less obvious because the housing (7) does not conform to the shape of the display device (8).
